

Paul Cezanne

Project: We will create a beautiful mixed media still life in the style of Cezanne.

Process: Based on Cezanne's many still lifes, we will create a still life with mixed media, either from your own setup, photograph, or from one of Cezanne's paintings. To start take a large piece of paper and paint or draw blocks of colors that you will use in your still life. This will be your pallet, you will cut up these colored sheets to the shapes you want, apple, lemon, table design, etc. to produce your image. Once the image is set you can add other mediums, I used nu-pastels to enhance the detail. This should be fun!

Materials: You will need paper, scissors, paint, pastels, and glue. Let's create!
